

# ALL ATTENDANCE RECORDS WERE BROKEN YESTERDAY

Estimated That Twelve Thousand People Passed Through Gates at the Exhibition Grounds on Second Day of the Big Fair.

The biggest day in the history of Edmonton exhibitions was the day that those in charge of the fair said the attendance yesterday. Despite a threatening sky that bore down all day the largest crowd that ever passed through the gates docked to the show during the afternoon. Exact figures are not available, but the estimate is that over 12,000 people were in attendance. For the first time in the history of horse racing here orders were issued to stop selling tickets to the grand stand, which is crowded to its utmost capacity from end to end and from top to bottom.

All seemed to enjoy themselves, the varied bill of attractions appearing in some feature. The majority of the people spent the day in watching the races and grandstand attractions. Others viewed the stock and exhibitors, while the numerous side shows were also well patronized.

The cool weather was a much desired boon and made sight-seeing a pleasure. The thought of such apparently did not deter the people from attendance, as it usually does.

The day's activities opened with the parade, headed by the Citizens' Band and Knights of Pythias. The parade was followed by the stock and exhibitors, while the numerous side shows were also well patronized.

# CLASSY HORSES CONVENTION HAS DRAWN TO A CLOSE IN SHOW RING

Judges here at Completed Work in Live Stock Exhibit—List of Winners.

The judging of light horses continued yesterday morning at the exhibition grounds with the hockney class the first up. Yastons and Rogers' Cockerell, from Wawanesa, Manitoba, was pitted against E. K. Strath's Woodman, from Lacombe, in the aged stallion class. Both animals were splendid types of the hockney breed and the first choice was taken in the test. The winning horse is two years of age and has been in the show ring for four years only.

The judges awarded the decision to the Manitoba horse on the ground that he was the better horse physically and that he got would make better coach horses by reason of his size and conformation. This was the first time that the stallions had met and great interest was taken in the test. The winning horse is two years of age and has been in the show ring for four years only.

# THE CONTEST IN PEACE RIVER

The Unique Contest in the Northern Constituency, Resulting in an Election by Act of Nature.

James K. Cornwall, member-at-large for Peace River, and James A. McKinnon, the agent appointed by the government to conduct the by-election in that constituency, and Albert Tait, who accompanied the former, returned to the city last evening from the north. It is generally known that they left Edmonton, and in that time they left Cornwall and Mr. Tait traveled 1,000 miles, and Mr. McKinnon drove 2,000 miles, before they returned to the city. The trip was made in a very short time, and the result was a very close contest.

The members of the association then assembled at the hotel, and the contest proceeded with the morning session. The members of the association then assembled at the hotel, and the contest proceeded with the morning session.

## FIVE SCALDED IN BOILER EXPLOSION

Boiler Room of U.S. Torpedo Boat  
Converted Into Death Chamber.  
One Not Expected to Recover.

San Francisco, Cal. June 29.—By an explosion in the boiler room of the United States torpedo boat Hull, just off Angel Island, this evening, soon after four o'clock, five men, one of whom is not expected to survive, were scalded terribly and a cloud of steam was cast over all the vessels of the Pacific coast fleet, which, by order of the secretary of the navy, had just left Mare Island to assemble in Sausalito Bay, whence it was to start today on the voyage to Seattle, to take part in the Fourth of July celebration at the exposition. R. F. King, a fireman of the second class, is the unfortunate bluejacket not expected to survive his injuries. Chief Surgeon O'Dell of the United States Hospital at Mare Island stated tonight that King's chances of recovery were slight. His lungs were burned by inhaling volumes of steam and his right side, from the shoulder to the ankle, was severely scalded, the flesh in some places peeling from the bone. All the injured are at the Mare Island hospital, suffering internally from the effects of the steam that rushed on them without a moment's warning and enveloped them before they had a chance to reach safety. The five men escaped immediate death through an open hatch, but King and Grover could not have climbed out of the scalding death chamber into which the boiler room suddenly had been converted had not sailors nearby rushed to their rescue.

### EDUCATIONAL QUESTIONS.

Occupied Attention at Meeting of Women's Council.

Toronto, June 29.—In the women's congress section on education, the subject for the day was co-education in secondary schools and in colleges and universities. The general impression was that co-education had more than justified itself and several journals were dealt out to the advocates of a separate college for women in the University of Toronto.

Miss Derrick, of McGill university, explored the tendency to have male teachers for girls and said teachers of both sexes were needed. "There can never be real equality of opportunity with the segregation of the sexes. It has been said in a recent discussion of co-education in Toronto university that women largely predominated in certain courses. This was not the result of anticipating co-education, but rather to the fact that these were the only subjects in which teaching positions were available for women after graduation. Miss Keys said that competition was as unfavorable to good results in scholarships as in every department of human energy. eradicate every element of competition. That is the radical disease of the educational system."

State education in America was largely at the mercy of an illiterate electorate. Private institutions were not so transgressed and to this end not the fact that they separated the sexes should be ascribed their points of superiority. In the "care of women" section light agricultural pursuit was advocated. James Lawlor, secretary of the Canadian Forestry Association, read a paper on women and the forests. This educational work affords a new field for women, not only as lecturers. The question of schools received consideration in the industrial section. "The children," said Inspector Hughes, "should not be made to study to the extremity." Instead, he would have a great deal more attention paid to the development of their characters. Development of the power of the soul is the ideal that teachers of the present day should strive to effect. The student that has a conception of the possibilities that he can achieve has obtained a greater asset from school training than the possession of exceptional knowledge.

That the colored man is no favorite in this town was shown by the cool reception he was given when he came into the ring. The reception given him was very enthusiastic, the audience being cheering him for more than a minute when he crawled into the ring clomping Johnson.

## THE TRACK

**ACCIDENT DID NOT LET OFF.**  
Winnipeg, June 30.—The regular postponed race between Nelson, Meadows and Archer, the three horses, took place this evening under the auspices of the Winnipeg Jockey Club. The race was disappointing and will be the last for the season.

From the start Nelson was the pace and had the lead until the last couple of miles, when Meadows passed him and won by 200 yards in 1:25.2.2.

Across the Indian, contented himself with second place throughout the race, and there is considerable comment on his lack of ambition, he not seeming to exert himself in any way, finishing a mile under his own record, on a slow track.

The track was slow but the Indian is considered slower. Nelson was credited with a record of 1:25.2.2.

As a result of the investigation of Jess Willard, who claims the exclusive contract with Nelson and a warrant was executed after the race. Nelson stated he had received \$1000 ransom money from Jess Willard, but the race had been postponed twice, when he was ready. Yesterday and today, he was released himself from the prison on his own bond. He declared his willingness to fight Jess Willard, but Jess Willard, who was at \$1000 and declared his intention of supporting the player Toronto referee.

**LACROSSE.**  
LACROSSE BOOMS IN CALGARY.  
Calgary, June 30.—Perhaps the largest meeting ever held in Calgary in the history of lacrosse took place in the Canadian Club last night. The game was a success in every way, and the ability of getting a team in shape to enter the Alberta League this year.

About two dozen players were on hand, together with the executive of the club and a number of enthusiastic and a complete reorganization of the club was recommended. The names of the officers of the club were given over, and in the majority of cases were re-elected.

Mr. Barney Collier tendered his resignation as manager and Mr. J. A. McCullough was elected to that position to replace him. In tendering his resignation, which was received with great deal of regret, Mr. Collier said that, owing to a congenial holiday trip which would keep him away from the city for a longer period, he felt that it was in the best interest of the game that he should retire, and someone with the necessary time at their disposal should assume the management of the team for the balance of the season.

He hoped that in the election of his successor the club would choose some one who thoroughly knew the game and would devote his entire energy to developing the national game of Canada in Calgary.

"I have no hesitation in saying that we have had the most loyal crowd of fans I have ever been connected with," said Mr. Collier, "and I trust you will get down to business and retain possession of the Lacrosse trophy, which the boys have won so handsomely for the past two years."

Mr. Collier also expressed the hope that if he could be of any assistance in the future, that the club would not hesitate to call upon him.

In accepting the resignation, a vote of thanks was passed to Mr. Collier for the great interest he had taken in the game in the past, and he was elected an honorary member of the Calgary lacrosse club for life.

A new secretary in the person of A. H. Collier, was also elected, and the manager and secretary were instructed to get in touch with other teams and arrange matches with High River, Narrows, Lethbridge and Edmonton.

During the meeting a collection was taken up among those present, and sufficient funds were realized to provide sticks for all the players. These will be procured today, and practice will be commenced tomorrow.

It was also decided to have a "fast" in the park on July 3. The members of the club will enter the procession in a splendidly decorated with the clubs' colors, blue and white, and the cups and trophies which they have won in the past will be prominently displayed.
